

EMERGENCY TEMPLATES

We have developed an area entitled Emergency NAF Templates on the AFNAFPO web site.

To access open the internet, the address is www.afnafpo.com, click Information for Bases, Policy and Training area and the link is located under the Procedures column. A link to the site is also provided below.

These templates are to be used only when IBPS is unavailable for a significant time period. If the AFNAFPO web server is down, these will not be accessible. The AFNAFPO web server is different than the IBPS servers. We are also pursuing creating these forms in a fillable format. The forms, as available, are the official NAF forms. Please ensure the numbering and titles/descriptions are not changed.

Any work accomplished outside of IBPS in an emergency situation will need to be entered into IBPS once the system is available.
